This is a gem of a war game. Plenty of action or combat to keep you interested and focused.

They should have made a sequel to this one or came out with some DLCs for this one.

This is a game that should have set the standard for the Medal Of Honor,COD and the Battlefield series.

A classic example of what a war game should be.

For those armchair soldiers out there I highly recommend it.. Ninja guy is a very easy hack and slash game and is very short too(took me about an 1 hour to complete).

Story:2V10 Very weak due to it only being about ninja guy trying to achieve his ninjaness.

SoundVMusic:4V10 Very bad music and ninja guy's quotes aren't that funny.

Gameplay:5V10 Not that bad,but it's pretty much the same thing all the time that you do.

Difficulty:Easy

Pros:

-None

Cons:

-Very easy

-Very short

-Repetitive

-Very few characters(not including bosses and enemies)

Overall i give the game a 4V10(Bad). 10\\10 Turns you into Hispanic Iron man.. Pretty good game!

Irony of Nightmare is as you probably know a horror game. And its actually pretty scary sometimes. But the best part about this game is the true ending. I am not going to spoil anything, but when I first played this game, I thought it would be another of those games where you are locked in a house and a killer is trying to kill you. NO! It will get a little glitchy... he.

The worst part of the game is, that some of the jumpscare are just clones and I think they got way too overused. It kinda ruins the atmosphere when something happens in EVERY ROOM!

In the end, I think its pretty good. Its also really cheap so get it now if you want.

7/10 Points!

The killer looks like an enemy from Left for Dead 2 change my mind. Cool, neat, unique!!!!!! much wow goodness. Decent graphics, decent puzzling, sort of a chintzy-feeling UI. I enjoyed the first campaign, which was a puzzler. From the 2nd campaign It turns arcadey, dodging fireballs and using a rolling ball to squash monsters, and at that point it lost my interest. But if that's sounds enjoyable to you, this is that.. An interesting little puzzle game with an interesting twist: You have to reach the exit by pushing the "room parts" around, but you can only push the one you are currently in. This gives the game some depths other similar games lack.... could have been a fair game but teleporting in this type of game really sucks

GOOP FOR THE GOOP GOD! GOOP FOR THE GOOP GOD! ARRRRAUUGGHGHGH. I was looking forward to this game for a while now. I'm glad it actually turned out great. The story is very nicely done.

This is one game you shouldn't be going for a speed run. Instead, I recommend you to talk to characters you meet, get to hear their stories, and watch what's around when you are on board. Just enjoy your journey.. not a particularly diverse puzzle, there are no different modes, but for this price they should not be, the main thing is that everything is done well and works. I want so badly to be able to play this for nostalgia but it crashes near the end of almost every level. I have to play the same levels over and over until I get through it once without crashing.. I have ALOT of games

I play ALOT of games

I have ALOT of VR games

I play ALOT of VR games

and this is a well polished one, very fun, and.... definitely sickening

I don't get sick easy in VR games, and unfortunately, this beautiful game is the first to really toss my cookies good.

10-15 minutes is fine, but 30+ minutes and your really gunna feel it... again no other game in my library has even come close.. it SUCKS, I really want to like this game

but as it is.... no.. I think escapism is the only thing I do well in my life. i played this game for 3 minutes, now i have cancer...

thanks. Steamulator. Aidan I hate you.. You cant make any Sexy or Porn Content with this, which i wanted to do.
